SDG10 REPORT

REDUCED INEQUALITIES

2026

SDG 10 UEMF 2026 in figures

Reduced inequalities Inclusion, diversity and local impact

Targets proposed based on observations. The internal index is neither a THE score nor an exhaustive measure of inequalities experienced.

Equal opportunities and accessibility

From institutional commitments to operational measures

4

core policy documents

equality, USR, social responsibility and digital technology.

8

equity mechanisms

grievances, gender parity, pay, disability and immigration.

9

accessibility measures

buildings, Braille, housing, shuttle and materials.

2

disability initiatives

inclusive conference and para-karate.

Institutional diversity

50% of students receive scholarships • over 48 nationalities represented at UEMF

Beneficiaries' social profiles, scholarship amounts and pathways are not disaggregated.

Policy commitments are counted separately from operational results and beneficiaries actually tracked.

Education, research and outreach

From intercultural content to local impact

5

degree programmes explicitly identified

7 course components across 3 schools.

17

SDG 10 research topics and projects

migration, disability, health and inclusion.

Intercultural dialogue

>40 nationalities at the Youth Summit • 16 African teams at the MiniCAN

72 participants from 12 institutions at UEMF Talks complement these activities.

2 080 participants • 12 local governance themes • 2 provinces

The UNFPA programme adds 140 beneficiaries across five cohorts.

The curriculum mapping uses strict text matching; schools must confirm the content actually taught.

2026: The Euromed University of Fez consolidates its impact in support of the SDGs

Introduction :

The Euromed University of Fez is actively committed to reducing inequalities by promoting equitable access to education and fostering social inclusion. Through its educational projects, support programs, and solidarity initiatives led by its student clubs, UEMF helps provide opportunities for all, while strengthening social cohesion and promoting justice and equality within its community and beyond.

This report is structured to highlight the University's key contributions to this Sustainable Development Goal. It presents the institutional policies implemented, the educational offerings (E-SDG), and research and innovation activities. The report also highlights the conferences and events organized, club activities and student life, as well as the awards and distinctions that illustrate the University's commitment and influence in this area.

UEMF Policies

The Euromed University of Fez is committed to reducing inequalities by promoting inclusion and equity within its academic environment. Aware of social and economic disparities, it implements policies aimed at guaranteeing equal opportunities for all. The university adopts charters and mechanisms that promote diversity and non-discrimination. It ensures equitable access to educational resources and training opportunities. The Euromed University of Fez also encourages the participation of all stakeholders in university life. This approach contributes to strengthening social cohesion and reducing inequalities. In this way, it actively participates in achieving SDG 10.

Politique de l'Université Euromed de Fès (UEMF) en matière de Responsabilité Sociale et Sociétale (version révisée 2025)

L'une des missions de l'UEMF est de former des citoyens conscients de leurs devoirs et droits, imprégnés de valeurs de vivre ensemble, d'altérité et d'esprit critique, tout en étant responsables en matière de protection de l'environnement et de respect d'autrui et de la nature. À cet effet, l'ensemble de la communauté universitaire est mobilisé pour atteindre les Objectifs de Développement Durable (ODD) autour des axes suivants :

I. Égalité de chances : parité, équité salariale et inclusion

L'UEMF promeut et met en œuvre une politique proactive d'égalité des chances et d'opportunités parmi son corps professoral, son personnel administratif et de soutien ainsi que parmi ses étudiants. Cette politique donne l'accès à tous à l'UEMF sans discrimination aucune que ce soit pour l'emploi, pour les études ou encore pour l'apprentissage tout au long de la vie. Cette politique s'articule autour des piliers suivants :

1. L'Université garantit l'égalité des chances et d'opportunités et quiconque constate ou subit un traitement inégal a le droit de déposer plainte au niveau du vice-Président en charge des Affaires Académiques pour les étudiants et au niveau du Secrétaire Général pour le corps professoral et le personnel administratif et de soutien (ODD 5, 10).
2. Les plaintes peuvent aussi être déposées auprès de l'ombudsman de l'Université.
3. Tout candidat pour un poste de travail à l'Université est traité par la Direction des Ressources Humaines en plus d'une commission de recrutement qui agit en toute transparence et rigueur et assure un traitement équitable pour tous.
4. L'Université s'est fixée comme objectif de :
 - a. Atteindre et maintenir la parité genre en nombre femme-homme, en utilisant la discrimination positive en cas d'égalité des profils et des compétences (ODD 5).
 - b. Assurer le même salaire pour les mêmes fonctions entre femmes et hommes.
 - c. Promouvoir la parité genre en matière d'accès aux hautes fonctions de l'Université.
 - d. Inclure un maximum de personnes aux capacités physiques réduites.
 - e. Inclure des personnes issues de l'immigration.

This policy embodies UEMF's commitment to integrating social responsibility into all of its missions. It highlights the importance of reconciling academic performance, respect for the environment, and a positive societal impact.

Charte de Responsabilité Sociétale (RSU) Université Euromed de Fès (UEMF) (Version révisée 2025)

Préambule :

L'UEMF est une fondation d'utilité publique ayant pour objectif de contribuer au développement et au renforcement de l'intégration régionale dans l'espace Europe-Méditerranée-Afrique, à travers les prismes académique, scientifique et culturel. L'université met en œuvre la mobilité et l'échange d'étudiants et d'enseignants-chercheurs de toutes ces régions. Actuellement, nos étudiants (50% boursiers) et nos enseignants-chercheurs représentent plus de 48 nationalités, avec plus de 50% de femmes parmi nos ressources humaines.

Notre mission ne se limite pas à former des experts techniquement compétents, mais à former des citoyens engagés, conscients de leurs droits et devoirs, respectueux des valeurs universelles telles que l'ouverture, la cohabitation pacifique, l'esprit critique, et le respect de l'environnement. Depuis sa création en 2012, l'UEMF a fait de la **Responsabilité Sociétale de l'Université (RSU)** l'un de ses axes stratégiques majeurs, en lien avec les **Objectifs de Développement Durable (ODD)** de l'ONU.

Les engagements de l'UEMF :

1. Formation et Recherche ciblées

Mener des travaux de formation (initiale et continue) et de recherche de haut niveau répondant aux défis socio-économiques et technologiques, et contribuer à l'atteinte des **ODD** de l'agenda ONU 2030. Cela inclut des recherches sur l'innovation durable, la réduction des inégalités (ODD 10), l'éducation de qualité (ODD 4) et la lutte contre les changements climatiques (ODD 13).

2. Lieu de réflexion et de propositions

Devenir un centre de référence pour la réflexion sur les transformations sociales et les modèles de développement durable, en intégrant les enjeux de l'intégration régionale et de l'innovation pour un avenir meilleur (ODD 9 et ODD 16).

This charter formalizes the integration of social responsibility at the heart of the UEMF's missions. It outlines concrete commitments in the areas of ethics, governance, respect for the environment and contribution to sustainable development.

Gender Equality Charter (Revised version 2025)

Charte Égalité Femme Homme

Université Euromed de Fès (UEMF)
(Version révisée 2025)

Préambule

Le Maroc dispose d'un Plan d'Action Stratégique pour l'institutionnalisation de l'égalité entre les sexes dans le système éducatif. Le respect des droits fondamentaux de la personne, y compris l'égalité, tel qu'il est défini par les normes internationales des Nations Unies, est une obligation, non seulement pour l'État (article 19 de la Constitution marocaine de 2011), mais aussi pour toutes les institutions de la société, y compris les universités.

L'UEMF, en tant qu'acteur engagé dans la promotion des droits humains, intègre ces principes d'égalité au cœur de sa stratégie. Ces engagements sont alignés sur les **Objectifs de Développement Durable (ODD)**, en particulier l'ODD 5 (Égalité entre les sexes) et l'ODD 10 (Réduction des inégalités).

Les engagements de l'UEMF

1. Définition de l'égalité femmes-hommes à l'UEMF

L'égalité des genres à l'UEMF implique une **égale visibilité, autonomie, responsabilité, et participation** des deux sexes dans toutes les sphères de la vie universitaire. Cette définition, inspirée du Conseil de l'Europe, soutient la promotion d'une égalité substantielle entre femmes et hommes (ODD 5).

2. Promotion de l'égalité dans le plan stratégique de l'UEMF

L'UEMF place l'égalité des genres au cœur de son plan stratégique, conformément aux engagements pris par le Maroc et en lien avec les objectifs de justice et de réduction des inégalités (ODD 10).

3. Égalité de traitement dans l'accès à l'emploi, la formation et la promotion

L'UEMF garantit un traitement égal entre les femmes et les hommes en matière d'**accès à l'emploi, de formation, de mobilité, de promotion professionnelle, et d'égalité salariale à compétences égales**. Cette démarche s'aligne sur les engagements des ODD 5 et 8 (Travail décent et croissance économique).

4. Atteinte de la parité

L'UEMF vise l'atteinte de la parité dans toutes ses instances, tout en interdisant toute forme de discrimination basée sur le genre, l'origine ethnique ou sociale, la langue, la religion, les convictions, les opinions, le handicap ou l'âge, en accord avec les ODD 5 et 10.

La charte « **Égalité Femmes Hommes** » de l'UEMF est diffusée au sein de l'université et auprès de ses partenaires. Elle est révisée régulièrement pour garantir une **amélioration continue**, en ligne avec les évolutions sociales et légales, ainsi que les objectifs des ODD.

The UEMF places equality between women and men at the heart of its values. This charter commits the University to promoting diversity, combating all forms of discrimination, and fostering inclusion at all levels.

UEMF Responsible Digital Charter (Revised Version 2025)

- **Développer des services numériques utiles et efficaces** : Créer des solutions qui répondent aux besoins réels des utilisateurs tout en minimisant leur impact environnemental.
- **Réduire l'impact environnemental des services** : Optimiser le poids des images, des vidéos, et des plugins pour diminuer la consommation de ressources (ODD 13).
- **Rendre les services numériques accessibles au plus grand nombre** : Garantir que les plateformes numériques soient utilisables par tous, y compris les personnes en situation de handicap et celles avec une connexion limitée (ODD 10).
- **Veiller à la diversité des recrutements des équipes SI** : Encourager une équipe variée en termes de formations, d'origines et de situations de handicap (ODD 5, 10).
- **Encourager la mixité femme/homme dans le domaine du numérique à tous les postes** : Promouvoir l'égalité des sexes dans tous les secteurs numériques.
- **Favoriser l'équilibre entre vie privée et vie professionnelle** : Respecter le droit à la déconnexion et encourager des mesures de télétravail adaptées (ODD 8).
- **Développer en open source** : Permettre l'émulation et le partage des ressources et solutions numériques.
- **Encourager les innovations territoriales** : Tester et déployer des produits et services digitaux qui répondent à des enjeux sociaux et environnementaux.

Digital technology plays a central role at UEMF, but its use must be responsible. This charter defines best practices regarding digital tools, data security, and reducing environmental impact.

E-SDG

The training programs offered by the Faculty of Nursing and Health Sciences, through its various specializations—General Nurse, Anesthesia and Intensive Care Nurse, Speech Therapist, Psychomotor Therapist, Dietetics and Nutrition, Laboratory Technician, and Radiology Technician—contribute to SDG 10 - Reduced Inequalities - by promoting access to skills and diverse, inclusive healthcare adapted to the needs of different populations. These programs prepare professionals capable of contributing to equitable patient care, particularly for vulnerable individuals or those with specific needs.

1. Sectors:

- MULTI-SKILLED NURSE
- Anesthesia and Resuscitation Nurse
- SPEECH THERAPIST
- PSYCHOMOTOR TRACKER
- DIETETICS - NUTRITION
- LABORATORY TECHNIQUES
- RADIOLOGY TECHNIQUES

2. LMD pathway:

- BACHELOR'S DEGREE PROGRAM:

3-year cycle, practical work in laboratory, rehabilitation rooms, simulation center, internships in health centers, hospitals, clinics and specialized centers.

- MASTER'S PROGRAM:

Advanced training accessible to licensed students. Two-year program divided into four semesters.

- DOCTORAL PROGRAM:

A 3-year program focused on scientific research in the fields of nursing, rehabilitation care, health techniques and nutrition.

Research, Innovation & Entrepreneurship

Research Topics - Doctoral Cycle

As part of the University's contribution to the Sustainable Development Goals (SDGs), a selection of doctoral research topics related to SDG 10 has been identified. This research focuses on social inclusion, equal opportunities, equitable access to healthcare and education, supporting vulnerable individuals through new technologies, and migration, intercultural, and geopolitical dynamics. The research also addresses issues related to conflict, territorial disparities, the impacts of climate change, and the promotion of more inclusive, equitable, and resilient societies.

Hack'Days: two days of immersion in the heart of innovation and entrepreneurship at UEMF

Hack'Days: two days of immersion in the heart of innovation and entrepreneurship at UEMF. Euromed innovation center (EIC) organized, in partnership with TAMWILCOM via the InnovInvest Fund and BlueSpace (Bank of Africa), on April 16 and 17, the Hack'Days of the Fes-Meknes region, bringing together students, project leaders and young entrepreneurs around an intensive bootcamp dedicated to the creation and development of innovative solutions. As part of a dynamic of supporting high-potential talent, this program aims to support the emergence of projects in strategic sectors such as digital, health, agritech, cybersecurity, greentech, fintech or edtech, thus contributing to the development of the regional entrepreneurial ecosystem.

Over the course of two days, participants were supported in structuring their ideas, designing concrete solutions and preparing their projects, in an environment conducive to experimentation, collaboration and collective intelligence. A true space for learning and co-creation, this event allowed each team to develop their project, benefiting from constructive feedback, dedicated mentoring and guidance that fosters the maturation of entrepreneurial initiatives.

The Hack'Days concluded with pitch sessions, offering participants the opportunity to present their projects, compare their ideas and reveal their full potential, in a dynamic focused on innovation and impact.

We extend our sincere congratulations to all participants for their commitment, creativity, and entrepreneurial spirit. This initiative confirms the role of the UEMF, through the Euromed Innovation Center, as a key player in structuring and supporting innovation at the regional and national levels.

Events

Academic events

A comparative look at Morocco's development: a presentation by Mr. Mohammed Boutaleb at the UEMF

The Euromed University of Fez hosted Mohammed Boutaleb, former Minister of Energy and Mines, for a conference dedicated to the development of Morocco, organized as part of its Conference Series.

Under the theme "The development of Morocco seen from different angles", the speaker analyzed the economic, social and territorial challenges of the Kingdom, emphasizing the ongoing transformations and the need for sustainable and inclusive development.

The meeting, marked by an interactive exchange with the students, was fully in line with the UEMF's mission to train engaged citizens and actors in sustainable development.

A new culture to rethink the world: a lecture by Professor Mohamed Zinelabidine

As part of our Conference Series, we had the honor of welcoming Professor Mohamed Zinelabidine, Director of Culture and Communication at ICESCO, for a conference entitled: "A new culture to rethink the world".

Through a dense and inspiring intervention, Mr. Zinelabidine offered an in-depth reading of contemporary cultural changes and the fundamental role of culture in building more conscious, inclusive societies open to dialogue.

The conference highlighted the role of the artist in our societies, the structural, economic, and symbolic challenges they face, and the reasons why it remains difficult today to make a living fully from culture and art. It offered a clear-eyed reflection on the social, institutional, and economic recognition of artistic professions.

In front of an audience of students, researchers and teachers, this meeting opened a space for rich dialogue around culture as a force for thought, engagement and social transformation, reaffirming its central role in the dynamics of human development and intercultural cooperation.

The Philosophy Encounters: the university at the heart of intellectual debate in Fez

From February 9 to 11, 2026, the Euromed University of Fez hosted the 11th^e edition of the Philosophy Rendez-vous, on the theme "Ambivalence of passions. Où Where is the world going?». This event, in partnership with the French Institute in Morocco, transformed different spaces of the city into places of reflection and debate, reuniting philosophers, researchers, artists and intellectuals.

Through conferences, workshops, public debates, and readings, the event fostered dialogue between academia and society, promoting critical thinking, understanding of social and cultural transformations, and the development of informed citizens. The Euromed University of Fez reaffirmed its role as an intellectual hub, open to exchange, the dissemination of knowledge, and cultural engagement.

Round table: Women's career paths: what factors shape women's professional trajectories?

The Euromed University of Fez hosted Ms. Helena Nolan, Ireland's Ambassador to Morocco, for a roundtable discussion on women's career paths entitled "Women's Career Pathways". Speakers from diverse backgrounds shared analyses and experiences on leadership, the structural changes and transformations in the world of work were discussed. The event fostered dialogue and reflection on policies and initiatives to support the development of women's talent, and highlighted the importance of sharing experiences to guide new generations. This meeting illustrates UEMF's commitment to intercultural dialogue, knowledge sharing, and the promotion of an academic culture open to the world.

New class graduates in Political Science – Sorbonne-UEMF track

The graduation ceremony for the Bachelor of Political Science, Sorbonne-UEMF track, marked the culmination of a demanding international curriculum, based on academic rigor, commitment and intellectual openness.

The graduates received their diplomas in the presence of their teachers, who had guided them throughout their studies. The ceremony was held in the presence of the Director of the Institute of Legal and Political Sciences at the Euromed University of Fez, Professor Kamal Kajja, as well as Professors Julien Fretel, Bertrand Simon, Philippe Marchesin, Asmae Kasimi, Mounia S., and Marie-Pierre W., who commended the students' dedication, commitment, and perseverance since the beginning of the program.

Welcoming students of different nationalities, this program fully embodies the spirit of the Sorbonne-UEMF partnership, offering a multicultural and demanding education designed to train individuals capable of analyzing and understanding contemporary political issues.

The Euromed University of Fez extends its congratulations to all the award winners and wishes them every success in the continuation of their academic and professional careers.

Third Summit of Young Africans and Euro-Mediterraneans of the Euromed University of Fez: Headquarters of the Academy of the Kingdom, Rabat, January 19, 2026

The Euromed University of Fez organised, under the supervision of the United Nations Chair for the Alliance of Civilisations and in partnership with the Academy of the Kingdom of Morocco and the Hassan II Academy of Sciences and Techniques, the third Summit of African and Euro-Mediterranean Youth on January 19, 2026 in Rabat.

Dedicated to civic engagement and the pluralism of values, the event brought together young people from over 40 nationalities, experts, and Moroccan and international institutional leaders. Discussions focused on citizenship, living together, solidarity, diversity, values education, and contemporary challenges, particularly in the age of hyperconnectivity.

Organised in the form of plenary sessions, the summit concluded with recommendations formulated by the students, giving rise to the UEMF's "Call for the Future", in favour of strengthened civic engagement and a more harmonious society.

Women's creativity is in the spotlight at the UEMF Conference Series

As part of its 2025-2026 Conference Series, the Euromed University of Fez hosted a conference entitled “Women and Creativity”, led by Zohra Lhioui, Professor of Comparative Literature at Moulay Ismail University.

During her presentation, the speaker highlighted the essential role of women's creativity in shaping cultures and collective imaginations. She emphasized that women's artistic, literary, and intellectual expression is a major driver of reflection on society, identity, and the human experience.

The conference also featured a reading of works by Moroccan artists, allowing for an exploration of the diverse forms that female creativity can take. These works reveal unique sensitivities and perspectives on the social, cultural, and personal realities that shape the female experience.

Rich in exchanges, the meeting offered participants a space for reflection on the links between artistic creation, critical thinking and the place of women in contemporary cultural production.

Through this series of conferences, the Euromed University of Fez reaffirms its commitment to promoting intellectual dialogue, the dissemination of knowledge and the opening of its university community to themes at the intersection of the humanities, culture and society.

The Euromed University of Fez hosted the Moroccan Day of Mathematics, an initiative organized by the Maths&Maroc association dedicated to youth and scientific culture.

On March 28, 2026, the Euromed University of Fez hosted the Moroccan Day of Mathematics (MDM), organized by Maths & Maroc with the support of the Hassan II Academy of Sciences and Technologies and Adria. The event brought together a diverse audience to promote scientific culture and the role of mathematics in contemporary transformations. Through a rich program (conferences, interactive workshops, Maths Sprint), the initiative made mathematics accessible and attractive, while sparking the interest of young people. The presentations by Mr. Omar Fassi Fihri and Professor Mostapha Bousmina highlighted the central role of mathematics in science, technology, and innovation. Finally, scholarships of excellence and awards were given to the winners, reinforcing the university's commitment to education and the development of talent.

Aesthetics, domination, and artificial intelligence: rethinking the power of images in the contemporary era

Aesthetics, domination, and artificial intelligence: rethinking the power of images in the contemporary era. As part of our lecture series for the current academic year, we organized a conference entitled "The notion of aesthetics and domination, from the 7th art to AI," led by Professor Fouad Souiba, writer and director.

In this presentation, Professor Fouad Souiba offered an in-depth reflection on the close links between aesthetics, representation, and power relations, tracing their evolution from classical cinematic language to new forms of expression shaped by artificial intelligence. Drawing on references from the world of film and contemporary digital transformations, he demonstrated how images are not limited to an artistic dimension, but constitute genuine tools of influence, capable of structuring collective imaginations, shaping perceptions, and sometimes reproducing or challenging forms of domination.

The conference also explored the profound changes brought about by AI in the processes of image creation, dissemination, and reception, thus opening up a discussion on the ethical, cultural, and societal issues related to these new technologies. Rich in exchanges and perspectives, this meeting examined the evolving ways we see in the digital age, highlighting the structuring role of images in contemporary dynamics.

Euro-Mediterranean dialogue and youth engagement for a sustainable future

During Kaja Kallas' official visit to the Euromed University of Fez, a conference and interactive exchange were organized for students of various nationalities. This meeting addressed several key themes related to international security, regional stability, Euro-Mediterranean dialogue, and the central role of youth in building a sustainable and inclusive future.

The discussions highlighted the importance of education, international cooperation, and civic engagement in promoting peace and sustainable development. Through this initiative, the UEMF strengthened its role as a space for intercultural dialogue and strategic reflection, while also promoting the active participation of young people in global transformation.

Changing our perspective on disability: towards an inclusive and equitable university.

As part of our Conference Series, the Euromed University of Fez organized a conference entitled: "Changing perspectives on disability: the inclusive university, a lever for equity and excellence", led by Dr. Khalid Benhassan and Professor Hajjoui Abderrazak.

Through this meeting, the speakers offered an in-depth reflection on the challenges of inclusion in higher education, highlighting the central role of the university in promoting equal opportunities and valuing all talents.

Drawing on their expertise in public health, rehabilitation and support for people with disabilities, they emphasized the need to move beyond traditional approaches to build more accessible, inclusive and tailored academic environments that reflect the realities of each individual.

The conference also provided an opportunity to examine perceptions of disability, inviting a renewed perspective based on inclusion, dignity and recognition of abilities, rather than limitations.

Rich in exchanges and perspectives, this meeting highlighted the importance of placing inclusion at the heart of university policies, as a lever for equity, but also as a factor of excellence and social transformation.

Scientific seminars & conferences

At the Euromed University of Fez, the “Mediterranean 2026” Prizes recognize figures committed to peace, dialogue and humanism.

As part of the Euromed University of Fez meetings on the Alliance of Civilizations, the “Mediterranean 2026” Awards ceremony honored individuals and institutions committed to peace, intercultural dialogue, international cooperation, and human development. Organized around the theme of artificial intelligence and the future of human civilization, the ceremony highlighted the importance of technological progress grounded in ethical, humanist, and solidarity-based values.

The awards recognized initiatives that contribute to bringing people closer together, promoting moderation, sharing knowledge, and developing an inclusive and sustainable vision of international relations. Through this event, the UEMF reaffirms its role as an academic and cultural space that fosters dialogue between civilizations, reflection on major contemporary challenges, and the building of a future based on peace, cooperation, and responsible innovation.

Cultural activities

Yennayer at the UEMF: a vibrant celebration of traditions and community

On the occasion of Yennayer, the campus of the Euromed University of Fez came alive to the rhythm of Amazigh traditions, celebrating a living culture deeply rooted in sharing and diversity.

Throughout the day, art, food, and music filled the university spaces, offering the university community a vibrant and emotionally rich experience. Artistic performances, cultural expressions, and convivial moments fostered a dialogue between heritage and modernity in a festive and inclusive atmosphere.

More than just an event, Yennayer at UEMF was a true time of gathering, highlighting the values of community, transmission and openness that enrich life on campus.

A memorable day, marked by culture, creativity and community spirit.

End-of-year celebration: a dinner of sharing and conviviality

As part of its commitment to fostering community and intercultural dialogue, the Euromed University of Fez organized an end-of-year dinner for its international staff. This gathering celebrated the values of diversity, respect, and cohesion that underpin the University's identity, while also providing a special setting for conversation, laughter, and convivial moments.

The academic and administrative staff, accompanied by their families, shared a unique moment around a communal table. The evening was enlivened by enriching discussions, moments of dancing and lightheartedness, perfectly illustrating the spirit of community and cultural richness that characterize the UEMF campus.

Through this initiative, the Euromed University of Fez reaffirms its commitment to an inclusive and supportive community, where sharing and exchanges contribute to strengthening human ties and the sense of belonging.

Let's celebrate the women who inspire and transform the UEMF

On the occasion of International Women's Day, we celebrate those who inspire, innovate and shape the future every day.

Students, teachers, researchers, staff, security guards, maintenance workers... each in her own way contributes to the life and progress of our community within UEMF. Through their experiences, their commitment, and their daily presence, they all contribute to the richness and strength of our university.

Today and every day, we salute their strength, their talent and their determination.

UEMF's Got Talent: a 6^e edition dedicated to talent, creativity and emotion

The Euromed University of Fez vibrated to the rhythm of the 6th^e edition of UEMF's Got Talent, an event that has become an essential part of student life and celebrates creativity, the diversity of artistic expressions and the talents of its university community.

Bringing together numerous participants and an enthusiastic audience, this latest edition offered an evening rich in emotion and captivating performances. Singing, dancing, stage performances, artistic displays, and creative demonstrations followed one another on stage, revealing the breadth of talent within the University. Each participant shared their unique world, their passion, and their energy, contributing to making this event a true moment of celebration and conviviality. Through this initiative, UEMF reaffirms its commitment to encouraging the personal development of its students and promoting a university environment where artistic expression plays a vital role. Far more than a competition, UEMF's Got Talent provides a special space for students to express their creativity, develop their self-confidence, and showcase their passions.

This 6^e edition was also marked by the quality and diversity of the services offered, illustrating the cultural and human richness that characterizes the community of the Euromed University of Fez.

Following the performances, three participants particularly distinguished themselves and were rewarded for their contributions:

🏆 Gabrielle EBABU 🥈 Benjamin CHIZUE 🥉 Sara ALAMI

The Euromed University of Fez extends its congratulations to the winners and all participants for their commitment, creativity, and contribution to the success of this evening. This latest edition confirms, once again, that talent flourishes in all its forms at UEMF.

Sports activities

1^{re} UEMF Open Taekwondo edition: sport, discipline and commitment

The Euromed University of Fes organised the first edition of the UEMF Taekwondo Open, in partnership with the Royal Moroccan Taekwondo Federation and the Fez-Meknes Regional Taekwondo League.

Conceived as a highlight of meeting and sharing, this event brought together athletes around fights and sporting demonstrations, in a structured framework where rigor, discipline and commitment were expressed in respect of the rules and values of taekwondo.

The day concluded with medal ceremonies, celebrating the investment, determination and quality of performance of the participants, and recalling the essential role of sport in building pathways based on excellence, respect and civic engagement.

Through the organization of this first edition, the UEMF reaffirms its commitment to the development of university sports activities, while consolidating its position as an actor involved in the sporting dynamic at the national level.

The Mini Africa Cup of Nations in Fez: three days dedicated to sport and community spirit

The Euromed University of Fez hosted a football tournament bringing together sixteen teams from several African countries, in collaboration with the Fez-Meknes Regional Football League and CESAM Fez. Organized over several days, the competition took place in a spirit of commitment, respect, and fair play, fostering exchange and closer ties among the participants.

The matches, supported by an enthusiastic crowd, highlighted collective discipline, the quality of play, and the players' commitment. Equatorial Guinea won the final against Chad, while the Moroccan team secured third place.

Through this initiative, the UEMF confirms its commitment to sport as a lever for cohesion, cultural openness and dynamism within university life.

National spirit, sport and youth: our campus proudly celebrated the 50th^e anniversary of the Green March

On November 6th, the Euromed Sports Center hosted a sports day combining mixed water polo and a men's basketball tournament, bringing together our students and junior teams from FAS, MAS, and USF. A competitive and dynamic atmosphere that reflects the commitment of our youth.

On the court, our students shone: a semi-final victory against FAS (47-30) and an intense final win against MAS (45-40). With over 80 participants, the event highlighted the commitment of our young athletes, the quality of play, and the excellent synergy between the teams.

Beyond the results, this day was a true moment of unity and patriotism, bringing together students, coaches, and officials around the values of solidarity and national pride. A memorable event that will remain etched in the sporting history of our campus.

Sporting and civic engagement: UEMF at the heart of the Fes Spiritual Marathon

As part of its commitment to well-being and active citizenship, the Euromed University of Fez participated in the Fes Spiritual Marathon as an official partner. On this occasion, the campus served as a checkpoint along the route, welcoming runners in a vibrant and friendly atmosphere.

University students also participated in this sporting event, demonstrating the values of pushing personal limits, teamwork, and collective commitment. Their participation reflects the university community's involvement in initiatives that promote a healthy and active lifestyle.

Beyond its sporting dimension, this participation reflects UEMF's desire to strengthen its connection with its local community by fully engaging in local social, cultural, and civic initiatives. It thus contributes to promoting an engaged university, connected to its city and an active participant in community development.

Heading towards the 4th^e edition of the Open Para-Karate Kata Fes at the UEMF.

The UEMF was pleased to host the fourth edition of the Open Para-Karate Kata Fes, organised by the Mohammed VI Foundation for Persons with Disabilities, in a dynamic of promoting inclusive sport and the values of self-improvement.

In an atmosphere marked by respect, discipline, and determination, the atmosphere came alive with demonstrations from these young athletes who came from all corners of the Kingdom. Through their performances, they powerfully embodied the values of karate, combining mastery, perseverance, and commitment.

Beyond the competition, this event was a powerful moment for raising awareness, highlighting the role of sport as a lever for inclusion, personal development and social cohesion.

We extend our sincere thanks to all the supervisors, chaperones, referees, volunteers, and participating delegations for their commitment and contribution to the success of this edition.

Through this initiative, the UEMF reaffirms its commitment to inclusion, diversity and sport for all, by offering an environment conducive to the expression of talents and the promotion of inspiring journeys.

Admissions activities and open house

Open Day: More than 2,900 high school students discover UEMF

More than 2,900 high school students passed through the doors of the Euromed University of Fez on the occasion of the Open Day, organized to support future students in their reflection on university orientation.

Upon arrival on campus, participants were welcomed and had the opportunity to speak with representatives from the university's schools and faculties to gain a better understanding of the courses offered, academic pathways, and study and career prospects.

The day continued with a tour of the facilities, offering a concrete glimpse into the learning and university life environment: classrooms, laboratories, living spaces and sports facilities.

For one day, the university was transformed into a true space for dialogue and discovery, fully mobilizing its academic and administrative teams to listen to, guide and support high school students in building their future university path.

The UEMF Caravan: Going to meet the talents of tomorrow

True to its international focus and its African roots, the Euromed University of Fez continues its annual tour of meetings and exchanges across the continent, in order to support students in their study projects. For the 2026/2027 academic year, the university teams visited Tunis and Sousse, Dakar, Cotonou and Abidjan in particular.

The program for these meetings includes: participation in information and guidance fairs, exchanges with the parents of current and future students, training and coordination with local partner offices, as well as the signing of agreements and partnerships with universities and companies.

This approach not only allows us to present the training offer, but also to listen to, advise and support students in building their academic path.

Through these meetings, the University reaffirms its commitment: to support students in their study projects and to strengthen ties with families and academic partners across the continent.

Open Day at UEMF, an immersion into the heart of our eco-campus

This Saturday, the UEMF welcomed more than 800 high school students, who came to discover a unique academic environment, combining innovation, sustainability and international openness.

Throughout the day, visitors were able to explore our latest generation eco-campus, designed as a true place for living, learning and experimentation and equipped with state-of-the-art educational and technological infrastructure.

It is also an opportunity to discover a rich and diverse range of training programs, covering a wide range of disciplines, and to interact directly with teaching staff, students and various university services, in order to better build their academic project.

Between immersive visits, inspiring encounters and personalized exchanges, this day allowed each participant to concretely envision their future university journey, within a stimulating and multicultural environment.

Through this initiative, UEMF reaffirms its commitment to supporting the talents of tomorrow, by offering them an environment of excellence conducive to personal development and academic success.

Diplomatic institutional visit

Courtesy visit of H.E. Tomasz Orłowski, Ambassador of Poland, to the UEMF

The Euromed University of Fez was pleased to welcome His Excellency Mr. Tomasz Orłowski, Ambassador of Poland to Morocco, for a courtesy visit.

Received by the President of the UEMF, Prof. Mostapha Bousmina, the Ambassador expressed his joy at being received at a university of international stature, whose multiculturalism constitutes one of the seven fundamental pillars.

During his speech, His Excellency also highlighted the pleasure of visiting Fez, an emblematic city of Moroccan heritage twinned since 1986 with the city of Krakow in Poland, a symbolic twinning between two former university capitals that share a long tradition of openness and intellectual exchange.

During this meeting, several avenues for academic and cultural cooperation were discussed, including student and teacher mobility between the two countries, the development of joint projects in the educational and cultural fields, as well as the possibility of collaborating on themes related to the alliance of civilizations, a strong focus at UEMF, supported by the Chair in Alliance of Civilizations and the RIEMAS Think Tank, dedicated to Euro-Mediterranean and African studies.

Student events

UEMF Welcomes its New Student Union

A new chapter begins at Euromed University of Fez with the creation of the Student Union. Presented in a recent video on the university's Instagram account, this union is founded on the values of unity, solidarity, and commitment. Supported by all the student clubs, its ambition is to restore students' confidence, take concrete action, and revitalize student life, making participation and cohesion the cornerstones of university life.

Distribution of flowers and messages to the teachers

On October 5, 2025, for World Teachers' Day, the University's Hands Club organized a wonderful initiative to celebrate and honor the role of teachers. Students had the opportunity to express their appreciation and gratitude by offering flowers accompanied by positive messages to their professors. This symbolic action aimed to highlight the importance of teachers' roles, not only in the transmission of academic knowledge but also in the human and personal development of students. Through this initiative, the Hands Club helped strengthen the bonds between teachers and students while emphasizing the essential impact of education in building a supportive and respectful university community.

Hygiene awareness in a primary school

On October 14, 2025, the Hands Club organized a hygiene awareness event at a primary school in Bensouda. The initiative aimed to educate students about the importance of personal and collective hygiene in preventing illness and promoting good health practices. Through age-appropriate explanations and interactive discussions, the children learned essential daily hygiene practices, contributing to a healthier and more responsible school environment.

Crochet Workshop

This introductory crochet session was organized with the aim of introducing participants to the fundamental basics of this craft practice, in an educational, friendly and accessible setting for all.

During the workshop, participants learned how to handle the necessary materials, including crochet hooks and yarn, while familiarizing themselves with essential basic techniques. Particular attention was paid to learning fundamental stitches, demonstrated step by step to ensure a gradual understanding adapted to the beginners' level.

Led by an experienced instructor, the session fostered hands-on, interactive, and personalized learning, allowing each participant to progress at their own pace. This initiative not only enabled the acquisition of basic technical skills but also encouraged creativity, concentration, and a spirit of collaboration among the participants.

Through this initiative, the objective was also to promote manual activities as a means of artistic expression and relaxation, while strengthening ties within the group.

Tribute to the Doctors and Committed Members – Elite Club

The Elite Club held a thank-you ceremony to express its deep gratitude to the doctors and club members for their commitment and efforts during the caravans and humanitarian missions of the previous term. This event provided an opportunity to highlight their contributions, present them with certificates of recognition, and celebrate together the successes and positive impact of their actions on the communities they helped.

[ELITE Club Report 25-26](#)

Blood Donation Campaign – Rotaract Club

The Rotaract Club organized a two-day blood donation campaign on the university campus, with the aim of raising awareness within the academic community about the importance of blood donation and making a concrete contribution to saving lives.

This act of solidarity mobilized a large number of students, teachers, and administrative staff, all united around a vital humanitarian cause. In collaboration with qualified medical teams, a dedicated space was set up to ensure a warm welcome for donors and strict adherence to hygiene and safety standards.

Beyond the blood drive, this initiative promoted the values of solidarity, social responsibility, and civic engagement within the university community. It also strengthened the spirit of cohesion and cooperation among the various stakeholders on campus, demonstrating the positive impact that collective action can have in service of society.

Creative Outing - Crafty Fall Themed Picnic

Organised in Ifrane, more precisely at the natural site of Aïn Vittel, this outdoor activity was part of a dynamic of strengthening the links between the members of the club, while promoting creativity in the open air.

Taking advantage of the autumn season and its inspiring natural setting, the club organized a creative, autumn-themed picnic, combining relaxation, art, and conviviality. The main objective was to foster group cohesion through an immersive experience, far removed from the usual academic environment.

In a warm and peaceful atmosphere, participants took part in various craft and artistic activities such as drawing, crocheting, and other hands-on crafts, directly in contact with nature. This time allowed everyone to freely express their creativity, while sharing moments of exchange and connection.

Beyond the artistic aspect, this initiative contributed to the well-being of the members, strengthening team spirit and consolidating human relationships within the club in a natural environment conducive to inspiration and rejuvenation.

Design thinking workshop - Enactus

The Enactus Club organised a Design Thinking training session within the incubator, led by Omar Ameer.

This training aimed to introduce participants to the various key stages of the Design Thinking process, including empathy, problem definition, ideation, prototyping, and testing. Through an interactive and dynamic approach, students were able to understand the importance of a user-centered approach in solving complex problems.

The session also included practical workshops allowing participants to concretely experience methods of collaborative thinking, brainstorming and rapid prototyping.

Beyond theoretical learning, this initiative fostered a spirit of innovation, teamwork, and the development of essential skills in entrepreneurship and project management, thereby strengthening the culture of innovation within the student community.

Speed debating – ORATIO

The ORATIO Club organised a Speed Debating session at Euromed University, offering members a dynamic and stimulating experience based on the Oxford style debate format.

During this activity, participants took part in rapid-fire debates, alternating between defending and opposing the same topic. This demanding format encouraged responsiveness, argumentation skills, and the ability to adapt to differing viewpoints, while fostering constant interaction among the participants.

Beyond the oral presentation skills, this session aimed to develop critical thinking, open-mindedness, and self-confidence. It allowed members to improve their communication skills, structure their ideas effectively, and learn to defend a position rigorously and respectfully within an enriching and collaborative academic environment.

Meet the alumni of EPS – Club GENIUS

The Alumni Meet was a powerful moment of sharing, inspiration, and knowledge transfer within the club. This gathering created a genuine intergenerational bridge between current members and alumni of the Euromed University of Fez (UEMF), who are now fully integrated into the professional world.

In this first episode dedicated to EPS graduates, the speakers shared their academic journeys, professional experiences, and the challenges they faced after graduation. Through authentic and inspiring stories, they offered practical advice on career guidance, preparing for the job market, skills development, and the importance of networking.

Beyond a simple exchange, this event is part of the Create. Enhance. Sustain vision:

- Create: create opportunities for dialogue and mentorship,
- Enhance: strengthen students' ambitions and skills,
- Sustain: maintaining a lasting link between the university and its community of alumni.

This initiative has thus strengthened the sense of belonging to UEMF while motivating students to actively build their own professional trajectory.

Health & Solidarity Caravan in Tigrigra – October 2025 - Elite Club

The Elite club organized a multidisciplinary medical caravan in Tigrigra, in the Ifrane-Azrou region, in order to bring healthcare closer to local populations and meet their medical needs.

This initiative mobilized 20 doctors from various specialties, including cardiology, gynecology, urology, ENT, ophthalmology, and dentistry. The beneficiaries were able to access:

A variety of consultations tailored to each specialty.

Comprehensive dental care, including extractions, restorative treatments, scaling and the fabrication of dentures,

Free distribution of medication, for comprehensive and effective care.

This action embodied a true moment of solidarity and humanitarian commitment, strengthening the link between the Elite club and local communities while contributing to the well-being and health of the inhabitants of Tigrigra.

[ELITE Club Report 25-26](#)

School Health Caravan in Ain Chkef – November 2025 - Elite Club

A school health caravan was organized to improve access to healthcare and raise students' awareness of the importance of health. In the area of dental care, beneficiaries received consultations and treatments, including extractions and cleanings, as well as the distribution of oral hygiene kits containing toothpaste and toothbrushes, to encourage good habits from a young age. The medical component offered general consultations for basic screenings, as well as ophthalmological consultations to assess students' visual health. This caravan was a vital preventive and educational initiative, contributing to children's well-being and promoting a culture of health in schools.

Meet the Laureates – Episode 2: Spotlight on the EIDIA Laureates

The Alumni Meet – Episode 2 was a powerful moment of sharing, inspiration, and knowledge transfer within the club. This meeting created a genuine intergenerational bridge between current members and alumni of the Euromed University of Fez (UEMF), who are now fully integrated into the professional world.

In this second episode dedicated to EIDIA graduates, the speakers shared their academic journeys, professional experiences, and the challenges they faced after graduation. Through authentic and inspiring stories, they offered practical advice on career guidance, preparing for the job market, skills development, and the importance of networking.

Beyond a simple exchange, this event is part of the Create. Enhance. Sustain vision:

- Create: create opportunities for dialogue and mentorship,
- Enhance: strengthen students' ambitions and skills,
- Sustain: maintaining a lasting link between the university and its community of alumni.

This initiative has thus strengthened the sense of belonging to UEMF while motivating students to actively build their own professional trajectory.

Health & Solidarity Caravan – Initiative of the Elite Club in Sais

Club Elite organized a multidisciplinary medical caravan, bringing together several specialties to offer comprehensive and free care to local communities. This initiative took place on November 16th and mobilized 20 dedicated volunteers. Medical services offered: We set up several specialized booths including general medicine for basic consultations, pediatrics for children's checkups, gynecology for women's health, dermatology, ophthalmology, and dental care. Paramedical examinations (blood pressure, blood sugar, wound dressings) were also provided by our teams of medical and nursing students. Awareness and prevention: Beyond providing care, we conducted awareness workshops on hygiene, disease prevention, and good health practices, reaching the entire community. Impact: This caravan allowed us to treat several beneficiaries in a single day, identify several cases requiring medical follow-up, and, most importantly, establish a close connection with a population often far removed from healthcare facilities.

Medical and Humanitarian Caravan for the Benefit of the Residents of the El Haj El Hadi Tajmouti Retirement Home

On November 20, 2025, a medical and humanitarian caravan was organized at the El Haj El Hadi Tajmouti retirement home in the city of Fez. The aim of this initiative was to provide medical, psychological, and human support to the elderly residents of the facility.

The program included medical consultations to assess the residents' health and address their specific needs. Simultaneously, activities to provide emotional support and entertainment were organized to encourage interaction, combat isolation, and offer moments of conviviality and well-being.

The caravan also featured the distribution of donations aimed at improving the daily lives of those receiving assistance. This act of solidarity reflects a strong commitment to the respect, dignity, and well-being of the elderly, while reinforcing the values of solidarity and social responsibility among the participating volunteers.

HIV Screening Day at the Euromed University of Fez: Awareness, Prevention, Action – Elite Club

On November 20, 2025, an HIV screening was organized within the Euromed University of Fez, in collaboration with ALCS, as part of health awareness and prevention actions.

This initiative aimed to inform students about the importance of early detection, to dispel misconceptions about HIV, and to encourage a responsible attitude towards sexual health. Through educational support and open discussions, participants received reliable and relevant information.

The screening took place in a strictly confidential, secure environment, supervised by qualified professionals. Students benefited from personalized advice and supportive guidance. This initiative helped strengthen the culture of prevention, responsibility, and solidarity within the university community.

[ELITE Club Report 25-26](#)

Mobile Medical and Dental Clinic in Tamedit: A Commitment to Solidarity in Service of Rural Communities

A multidisciplinary medical caravan was organized in Tamedit, in the Taounate region, to strengthen access to care for local populations and to meet the health needs of rural communities.

This initiative mobilized several medical specialties, allowing beneficiaries to access tailored consultations in various healthcare fields. Dental care played a central role, with consultations, extractions, restorative treatments, scaling, and the fitting of dental prostheses provided, ensuring comprehensive and high-quality treatment.

Furthermore, the pharmacy service provided free dispensing of prescribed medications, contributing to appropriate therapeutic monitoring and the improvement of patients' health.

Through this high-impact social action, the club reaffirms its commitment to health equity, the well-being of rural populations and the promotion of sustainable solidarity.

Master of Speech Club Finalist at Doc's Mic – FMP Fes (English Section)

The Master of Speech Club participated brilliantly in Doc's Mic – FMP Fès (English Section), an event dedicated to oral expression and the art of speech in English, organized within FMP Fès.

Thanks to their commitment and the quality of their performances, the club members proudly reached the final stage of the competition. This experience allowed them to showcase their public speaking skills, their fluency in English, as well as their creativity and ability to captivate an audience.

Beyond performance, this participation illustrates the club's ongoing commitment to promoting excellence in communication, strengthening self-confidence and developing leadership among its members, thus helping to train students capable of expressing themselves with impact and conviction.

[ELITE Club Report 25-26](#)

Themed Drawing Workshop: Immersing yourself in the world of Harry Potter

The Crafted Knots club organized a Harry Potter-inspired drawing workshop at the university. Designed with an immersive winter theme, this session offered participants the opportunity to delve into a rich narrative world while developing their artistic skills.

Through the exploration of different techniques and materials—gouache, acrylic, watercolor, and other media—students were able to experiment with composition, color work, and narrative illustration. The workshop encouraged each student to express their creativity, tell a story through images, and refine their personal style.

This activity provided an opportunity for artistic exchange and discovery, strengthening the creative spirit and individual expression within the university community..

Enactus Bootcamp: Strengthening Pitch Skills and Needs Analysis

The Enactus club organised a bootcamp in collaboration with Enactus ENCG Fès and Enactus FMDP Fès, aimed at strengthening the skills of participants in the context of entrepreneurial and social projects.

This event offered interactive sessions on Pitching, allowing students to effectively present their ideas and projects to an audience or juries, and on Needs Assessment, in order to better identify the problems of beneficiaries and design appropriate solutions.

Thanks to this bootcamp, participants were able to develop their confidence, refine their communication skills, and acquire practical tools to maximize the impact of their initiatives. This inter-university collaboration also fostered the exchange of experiences and the creation of a strong network among students engaged in social entrepreneurship.

Third Edition of the UEMF Talks: National Eloquence Competition

The Master of Speech Club organized the third edition of UEMF Talks, a national public speaking competition bringing together participants who speak in French, English, and Arabic. The event gathered 72 participants from 12 universities across Morocco, providing a prestigious platform to showcase talent and skills in oral communication.

This competition allowed students to demonstrate their oral fluency, creativity, and ability to persuade an audience in several languages. It also highlighted the importance of public speaking, critical thinking, and self-confidence in personal and academic development.

The UEMF Talks are a highlight for the club, reflecting its commitment to promoting excellence in communication and developing leaders capable of speaking with impact at the national level.

School Health Caravan in Aïn Chkef: Prevention and Well-being of Students by the Elite Club

On December 20, 2025, the Elite Club organized a school health caravan in Aïn Chkef, in the Moulay Yaacoub region, aimed at promoting prevention and the well-being of students.

The dental component offered consultations, preventive care and awareness campaigns, in order to instill good oral hygiene habits and prevent dental diseases from a young age.

In parallel, general medical consultations were conducted to assess the overall health of the students, while the ophthalmology department ensured the screening of visual disorders, guaranteeing comprehensive and preventive care.

This initiative by the Elite Club constitutes an essential educational and preventive action, strengthening the culture of health in schools and contributing significantly to the well-being and protection of students.

[ELITE Club Report 25-26](#)

Traditional Music Workshop: Discovering Moroccan Musical Heritage

The Mémoire en Scène Club organised a traditional music workshop for students, offering them the opportunity to explore and practice Moroccan musical styles.

During this session, participants learned to play traditional instruments, while discovering the authentic rhythms and sounds that characterize the richness of Morocco's musical heritage.

This workshop aims to preserve and promote Moroccan musical culture, while allowing students to develop their artistic sense, listening skills, and creativity. It also provides an opportunity for cultural exchange and the celebration of local traditions within the university community.

Solidarity visit to the Pediatric Hematology-Oncology Department of the University Hospital by the Elite Club

On January 8, 2026, the Elite Club, in collaboration with the PISE project and the Prosthetists Association, organized a solidarity visit to the pediatric hematology-oncology department of the University Hospital, with the aim of bringing comfort, entertainment and awareness to hospitalized children.

A specially designed space allowed the children to enjoy games and fun activities, two PlayStation consoles, and a library to encourage reading. Desserts and bottles of water were distributed to make their day more pleasant and enjoyable.

In parallel, the club carried out an oral health prevention campaign, distributing hygiene kits (toothbrushes and toothpaste), as well as essential products such as diapers, toilet paper and wipes.

This initiative made it possible to combine fun, education and care, strengthening the well-being of children and illustrating the solidarity and human commitment of the Elite Club towards young hospitalized patients.

[ELITE Club Report 25-26](#)

Theatre Workshops: Developing Student Creativity and Expression

The Mémoire en Scène Club organized theatre courses for students, aimed at stimulating their artistic expression, self-confidence and public speaking skills.

Through interpretive exercises and stage performances, participants explore their creativity, develop their sense of rhythm and body expression, while strengthening communication and teamwork.

These workshops offer a fun and educational setting where students can express themselves freely, experience different roles and improve their interpersonal and public speaking skills, thus contributing to their personal and academic development.

Solidarity Caravan of the Mémoire en Scène Club: Support for Families in Need

The Mémoire en Scène Club organised a solidarity caravan aimed at providing concrete support to families in vulnerable situations.

Through this initiative, 26 families received essential assistance, including food, basic necessities and social support.

This initiative reflects the club's commitment to social responsibility and community support, while raising awareness among its members of the values of solidarity, mutual aid, and active citizenship. It contributes to strengthening the local social fabric and improving the daily lives of those it serves.

Solidarity Iftar: Student solidarity and engagement during Ramadan - Rotaract Club

As part of their social and community service activities, the Rotaract Club UEMF organized a humanitarian effort to distribute Ramadan iftar meals to the most vulnerable members of the community. Driven by the students' commitment and spirit of solidarity, this initiative resulted in the distribution of over 250 meals, providing moments of sharing, generosity, and fellowship during the holy month. Beyond simply distributing food, the action exemplifies the values of social responsibility, mutual support, and cohesion that motivate the student community, while also raising awareness among young people about social issues and the importance of taking action for the well-being of those living in precarious situations.

Blood Donation Campaign – April 2 & 3, 2026

As part of its civic and solidarity actions, the Elite Club organized the "Blood Donation Campaign - April 2 & 3, 2026", an initiative aimed at raising awareness of the importance of blood donation and actively contributing to strengthening national reserves.

Over these two days, club members mobilized to encourage student and staff participation, while also ensuring logistical organization and providing optimal support to donors. This campaign resulted in a significant number of donations, contributing to saving lives and meeting the urgent needs of healthcare facilities.

Beyond its health impact, this initiative also provided a powerful moment for raising awareness and fostering solidarity, strengthening the spirit of commitment and social responsibility within the university community. It fully reflects the values of the Elite Club, founded on mutual support, volunteerism, and positive impact in service to society.

Solidarity Iftar – Ramadan 2026

As part of its Ramadan activities, Club Élite organized the "Solidarity Iftar – Ramadan 2026" initiative, aimed at promoting the values of solidarity, sharing, and civic engagement. This initiative involved preparing and distributing 150 iftar meals to people in need.

Made possible through the active mobilization of club members and the involvement of its partners, this initiative provided concrete support to beneficiaries, while strengthening the spirit of mutual aid and social cohesion, particularly significant during the holy month of Ramadan.

Beyond its humanitarian aspect, this action fully illustrates the Elite Club's identity as a committed actor, working towards a positive and lasting social impact. It also demonstrates the club's ability to initiate and lead solidarity projects with strong human value, responding to the needs of communities.

[ELITE Club Report 25-26](#)

Tazouta Medical-Humanitarian Caravan - Sefrou Province

On March 8, 2026, the Elite Club of the Euromed University of Fez organized a mobile medical and dental outreach program in Tazouta, in the province of Sefrou, to benefit the local population. This humanitarian and healthcare initiative involved 15 doctors and 5 dentists, all working together towards a common goal: bringing healthcare closer to the inhabitants of rural areas and improving access to specialist consultations.

The mobile clinic provided medical consultations in several specialties, including gynecology (with ultrasound examinations), cardiology, gastroenterology, rheumatology, and dental care and consultations. Thanks to the commitment of healthcare professionals, student volunteers, and mobilized partners, this initiative helped meet the medical needs of many beneficiaries in a spirit of solidarity, prevention, and social support.

[ELITE Club Report 25-26](#)

ECG Interpretation Training led by Dr. Mohamed Amine Guessab 02/04

As part of its internal training program, the Elite Club organized, on Thursday, April 2, 2026, a training session in electrocardiogram (ECG) interpretation, led by Dr. Mohamed Amine Guessab.

The aim of this session was to strengthen the clinical skills of club members in reading and analyzing ECG tracings, an essential tool in the diagnosis of cardiovascular diseases. Through a combined theoretical and practical approach, participants acquired the fundamental principles of interpretation, as well as keys to applied clinical reasoning.

This initiative reflects the Elite Club's commitment to promoting excellence, capacity building, and skills development among its members by offering high-quality training led by experienced healthcare professionals. It also demonstrates the club's dedication to effectively preparing its members for the challenges they face in the field, particularly during medical caravans and community health initiatives.

School Health Caravan – Ben Khlif School Group, Ouled Mimoun 11/04

On April 11, 2026, Club Élite organized the "School Health Caravan – Ben Khlif School Group, Ouled Mimoun," as part of its community health and school-based prevention initiatives. This initiative aimed to promote the health and well-being of students while reinforcing preventative practices from a young age.

During the day, students received general medical consultations, dental care and procedures, as well as visual acuity tests. Oral health prevention workshops were also held, along with the distribution of toothbrushes and toothpaste, to raise children's awareness of good dental hygiene practices.

This initiative fully illustrates the Elite Club's commitment to youth health and prevention, while demonstrating its ability to organize comprehensive and structured interventions to serve school communities. It also reflects the club's spirit of solidarity and social responsibility towards children and their educational environment.

[ELITE Club Report 25-26](#)

SDG challenge: from idea to impact

On April 16, 2026, the Elite Club of the Euromed University of Fez organized an inspiring workshop entitled "SDG Challenge: From Idea to Impact," led by Hamid Taghlaoui. The workshop aimed to raise students' awareness of the importance of the Sustainable Development Goals (SDGs) and to encourage them to transform their innovative ideas into projects with concrete impact.

Through interactive discussions, case studies, and practical advice, participants were able to discover the various stages involved in designing, structuring, and developing initiatives with social, environmental, and economic objectives. Mr. Hamid Taghlaoui's presentation also highlighted the role of governance, leadership, and citizen engagement in the success of sustainable projects.

This workshop provided a space for inspiration, reflection and creativity, strengthening the entrepreneurial spirit and commitment of students to more inclusive and sustainable development.

[ELITE Club Report 25-26](#)

School Health Caravan – Abbas El Amrani High School, Sbaa Rouadi 18/04

On April 18, 2026, the Elite Club organized the "School Health Caravan – Abbas El Amrani High School, Sbaa Rouadi," as part of its health and prevention initiatives for students. This action aimed to promote well-being and health prevention within the school environment.

During the day, students were able to receive general medical consultations, dental care and procedures, as well as visual acuity tests. In addition, oral hygiene workshops were held, along with the distribution of toothbrushes and toothpaste, to raise awareness among young people about the importance of hygiene and preventative care.

This intervention illustrates the Elite Club's commitment to improving student health and strengthening prevention from a young age, while demonstrating its ability to deploy comprehensive and structured health caravans, meeting the needs of local school communities.

[ELITE Club Report 25-26](#)

Sexual and reproductive health: raising awareness for better prevention

On April 23, 2026, the Elite Club of the Euromed University of Fez organized a conference on sexual and reproductive health in partnership with ALCS and the Espace Santé Jeunes Ville Nouvelle Fez. The aim of this event was to raise student awareness of issues related to sexual and reproductive health through an educational, preventative, and participatory approach.

The conference focused primarily on three major themes: sexually transmitted infections (STIs), sex education, and contraception. Speakers emphasized the importance of access to reliable information, prevention, and adopting responsible behaviors to promote the health and well-being of young people.

Through interactive exchanges and enriching discussions, this initiative has created a space for open and constructive dialogue, helping to break taboos around sexual health and raising student awareness of these essential public health issues.

[ELITE Club Report 25-26](#)

Mobile Medical and Dental Clinic in Ksar Jdid 26/04

On April 26, 2026, the Elite Club of the Euromed University of Fez organized a medical-dental caravan in Ksar Jdid, in the province of Rissani, as part of its humanitarian and social actions aimed at strengthening access to care in rural and remote areas.

This initiative mobilized a team of healthcare professionals and volunteers to provide multidisciplinary medical consultations to local residents. The services offered covered several specialties, including cardiology, gastroenterology, gynecology, dermatology, and ophthalmology, in addition to dental consultations and care, as well as general medicine.

The caravan aimed to bring health services closer to local populations, promote early detection, and raise awareness of the importance of prevention and medical follow-up. It thus enabled comprehensive and accessible healthcare for beneficiaries.

Through this action, the Elite Club reaffirms its commitment to solidarity, health promotion and social development in service of vulnerable communities.

[ELITE Club Report 25-26](#)

Humanitarian caravan in Ksar Jdid: 150 blankets to support rural families

On May 3, 2026, the Elite Club of the Euromed University of Fez organized a humanitarian caravan to Ksar Jdid, in the province of Rissani, as part of its solidarity actions aimed at supporting rural populations and improving their living conditions.

This initiative is part of a local humanitarian approach, driven by values of mutual aid, solidarity, and social commitment. It enabled the distribution of 150 blankets to beneficiary families, helping them cope with the weather and meet their basic daily needs, particularly during cold periods.

Beyond the material aid, this caravan provided a powerful moment of sharing and connection with the residents, strengthening the bonds between the volunteers and the local population. This initiative reflects the Elite Club's commitment to providing concrete solutions to the needs of vulnerable communities and contributing to the improvement of their living conditions.

Through this type of initiative, the Elite Club confirms its long-term commitment to humanitarian action, social development and territorial solidarity.

[ELITE Club Report 25-26](#)

A social and educational day for the benefit of the children of the Lalla Amina Center

On Thursday, May 7, 2026, the Elite Club of the Euromed University of Fez, in collaboration with the Directorate of Student Affairs, participated in the organization of a cultural and sporting day for the benefit of the children of the Lalla Amina Center for the Protection of Children.

This solidarity initiative was marked by the distribution of Elite bags containing school supplies, including pencil cases, pens, notebooks and coloring books, in order to support and encourage children in their educational journey.

During the day, the Elite Club also ran an oral hygiene awareness workshop, along with the distribution of toothbrushes and toothpaste. The workshop aimed to educate children about the importance of brushing their teeth and good hygiene practices to maintain their oral health.

Through this social and educational action, the Elite Club reaffirms its commitment to children, education and the promotion of health.

[ELITE Club Report 25-26](#)

Mobile dental clinic in Izlafene: strengthening access to care and prevention

On May 9, 2026, the Elite Club of the Euromed University of Fez, in partnership with the IAA Club of the Faculty of Sciences and Techniques of Fez, organized a medical and dental caravan in Izlafene, in the province of Taza, as part of its community health and prevention initiatives. This initiative provided medical consultations in general medicine, cardiology, and gynecology, along with the dispensing of medication to diagnosed patients. A significant oral health prevention component was also implemented through awareness campaigns and the distribution of 400 toothbrushes and toothpaste to beneficiaries. Through this initiative, the two clubs helped bring healthcare services closer to rural populations while reinforcing awareness of the importance of prevention and medical follow-up.

[ELITE Club Report 25-26](#)

Humanitarian action in Izlafene: solidarity and support for rural families

As part of the medical and humanitarian caravan organized on May 9, 2026, in Izlafene, the Elite Club of the Euromed University of Fez and the IAA Club of the Faculty of Sciences and Techniques of Fez also carried out a significant humanitarian effort to benefit families in the region. This act of solidarity enabled the distribution of 150 food baskets to beneficiary families, supporting vulnerable populations and contributing to the improvement of their living conditions. In addition, recreational and entertainment activities were organized for children, creating a moment of sharing, joy, and connection with the local community. This initiative reflects the values of mutual aid, solidarity, and civic engagement upheld by both clubs in support of social and human development.

UEMF's Got Talent: a 6th edition dedicated to talent, creativity and emotion

As part of its policy to promote student well-being and the development of artistic and creative skills, the Euromed University of Fes (UEMF) organized the 6th^e The UEMF's Got Talent edition, a cultural event that has become a key part of university life, brought together students, teachers, and members of the university community to celebrate creativity, cultural diversity, and artistic expression.

Throughout the evening, participants presented a variety of performances showcasing their talents in different areas such as singing, dancing, stage performance, and other forms of artistic expression. This event provided students with a platform to share their passions, develop their self-confidence, improve their communication skills, and strengthen their ability to speak in front of an audience.

Beyond its artistic dimension, UEMF's Got Talent provides a space that fosters inclusion, diversity, and cohesion within the university community. By showcasing individual talents and the cultural richness of students, this event helps strengthen the sense of belonging to the University and promotes an environment that respects the diversity of backgrounds, cultures, and forms of expression.

This initiative illustrates UEMF's commitment to a holistic educational approach that goes beyond the acquisition of academic knowledge to also foster students' personal development, creativity, initiative, and social skills. It thus contributes to creating a stimulating university environment conducive to individual growth and the development of talents.

Partnership

The UEMF hosts the 6th^e Meeting of the Board of Directors of the Green H2 Morocco Cluster

On January 23, 2026, the Euromed University of Fez hosted the sixth meeting of the Board of Directors of the Green H2 Morocco Cluster, highlighting its leading role in research and innovation in strategic sectors related to the energy transition. Prior to the meeting, participants toured the university's facilities, including sports facilities, laboratories in civil engineering, mechanics, biotechnology, and chemistry, as well as the ideation incubator and the Fez Smart Factory, demonstrating UEMF's capabilities in research and technology transfer.

The meeting focused on analyzing the Cluster's financial and organizational situation, reviewing activities, future development, and strengthening governance, within a context favorable to green hydrogen. The event illustrates the UEMF's commitment to supporting innovation, institutional partnerships, and the development of future-oriented sectors in Morocco, particularly in renewable energies.

- Application deadline: January 20, 2026
- Academic year: 2026–2027

Application for the Restricted Tender – GIMAS Programme (Aerospace Industry)

Monitoring of Continuing Education Projects

The Euromed University of Fez submitted its application as part of the restricted call for consultation notices of the GIMAS programme

5- Public markets

GIMAS

AVIS D'APPEL À CONSULTATION RESTREINT
RÉALISATION DES ACTIONS DE FORMATION GROUPEE POUR LES MEMBRES DU GIMAS (INDUSTRIE AÉRONAUTIQUE)

Le GIMAS lance le présent appel à consultation restreint pour le choix des organismes qui seront chargés de la réalisation des actions de formation, inscrites dans le plan des formations groupées, financé par le système des contrats spéciaux de formation « CSF ».

PRÉSENTATION DU GIMAS :

Le GIMAS - Groupement des Industries Marocaines Aéronautiques et Spatiales est une association professionnelle créée par les industriels pionniers en Aérospatiale en 2006.

Le GIMAS a pour Rôles :

- Accompagner et faciliter l'accueil des nouveaux arrivants dans les meilleures conditions, avec l'appui de nos partenaires fidèles et les hautes instances administratives.
- Rédiger, représenter et défendre les intérêts des industriels auprès des pouvoirs publics, organismes nationaux et internationaux - Analyser et examiner de toutes les mesures d'ordre économique, financier ou social pouvant impacter les intérêts communs des membres du GIMAS (Loi des Finances, ADH, Décrets, Code du travail, ...)
- Former les salariés pour répondre aux exigences aéronautiques internationales mais aussi aux besoins spécifiques des membres.
- Négocier des partenariats avec les pouvoirs publics au profit des industriels aéronautiques : contrats cadres auprès des administrations.
- Promouvoir l'image de la supply chain aéronautique marocaine dont le GIMAS lors de la participation aux divers salons, et foires internationaux aux côtés de nos partenaires privilégiés.
- Permettre aux industriels d'accéder à un réseau et d'avoir un support sur le plan RH, Fiscal, Légal, Sourcing, Qualité...
- Organiser des missions de prospection et d'information sur le plan national et international.
- Accompagner les PIMs Aéronautiques Marocaines dans l'amélioration de leur compétitivité ce qui impacte favorablement le taux d'intégration Local. Mise en place du Programme Be-Max (Build the Moroccan Aerospace of Excellence).
- Lancer des études stratégiques majeures dans le cadre du plan d'accélération industrielle visant le développement des écosystèmes aéronautiques existants et l'émergence de nouveaux.
- Développer la solidarité entre les acteurs du secteur et le partage des bonnes pratiques au travers des divers Workshops et rencontres.
- Renforcer la compétitivité dans le secteur aéronautique en soutenant l'innovation et la Recherche et développement le but est d'atteindre un niveau d'excellence permettant de générer une dynamique de croissance basée sur la création de valeur au niveau régional et de se positionner sur le plan international.

UEMF submitted its application in response to the Restricted Call for Tenders issued by GIMAS (Groupement des Industries Marocaines Aéronautiques et Spatiales), a professional association founded in 2006 by pioneering aerospace industry leaders in Morocco. This call for tenders concerns the delivery of group training programs for GIMAS members, financed through Special Training Contracts (CSF), which are part of the group training plan. GIMAS's mission is to support industry players, advocate for their interests with public authorities, train employees to meet international aerospace standards, and strengthen the competitiveness of Moroccan aerospace SMEs, particularly through the Be-Max Program (Build the Moroccan Aerospace of Excellence). By responding to this call, UEMF affirms its strategic positioning as an essential player in vocational training in high value-added industrial sectors, and its desire to actively contribute to the development and competitiveness of the Moroccan aeronautical industrial fabric at the national and international level.

Executive Training Programme on Sustainable Social Finance - UNFPA

The UEMF submitted its application to the Executive Training Programme on Sustainable Social Finance and Blended Finance Mechanisms, an initiative fully funded by the United Nations Population Fund (UNFPA). This ambitious program was structured into five cohorts targeting distinct audiences: Civil Society, Government, the Private Sector, the Media, and Academia, for a total of 140 participants. Each cohort followed a modular program covering an introduction to sustainable social finance, blended finance, social bonds and Sukuk, Social Return on Investment (SROI), and tools and methodologies for designing impactful projects. All sessions took place between October and November 2025, culminating in an official closing ceremony on January 16, 2026, at the Bouregreg Palace in Salé, as part of the GIB project aimed at empowering vulnerable girls, particularly NEETs (Not in Education, Employment, or Training). This achievement illustrates UEMF's ability to design and deploy large-scale national certification training programs in partnership with major UN agencies.

Operational Agreement with Enabel – Belgian Development Agency (Link up Africa Project)

The UEMF signed an Operational Agreement with Enabel, the Belgian Federal Government's Development Agency, in May 2024, within the framework of the Link Up Africa project. This agreement positions the UEMF as an operational partner in an international cooperation initiative for African development. This partnership with a leading international cooperation agency demonstrates the UEMF's growing international influence and credibility on the African continent.

Agreement with the Fes-Meknes Regional Chamber of Handicrafts

The UEMF (Union of Moroccan Craftsmen) signed a partnership agreement with the Regional Chamber of Handicrafts of the Fes-Meknes region, marked by an official signing ceremony attended by representatives of both institutions. This partnership aims to develop continuing education programs tailored to the regional handicraft sector, supporting artisans, cooperative leaders, and other stakeholders in the craft industry to enhance their managerial, technical, and entrepreneurial skills, thereby contributing to the promotion of Morocco's handicraft heritage.

The consolidated balance sheet of Master Plan for the Continuing Education of Elected Officials 2025 reveals a remarkable impact: 2,080 participants. In total, 1,664 people benefited from the training provided in the two provinces (416 in Moulay Yaacoub). This multi-thematic program covers 12 governance themes local distributed between the two provinces, demonstrating the UEMF's capacity to deploy large-scale continuing education programs for the benefit of Moroccan local elected officials. This exceptional result positions the UEMF as a leading institutional actor in strengthening local governance in Morocco, directly contributing to improving the managerial and decision-making capacities of more than 2,000 local elected officials in the Fes-Meknes region.

Bernspire 2025-2026: Applications open for international student competitions

Bernspire, a Swiss association committed to education, innovation and the development of young talent internationally, announces the official opening of applications for the 2025-2026 edition of its academic competitions.

Organized annually on a supra-regional scale, Bernspire's Graduation Project Challenges are aimed at final-year university students in the fields of engineering and social sciences. This initiative seeks to promote innovative graduation projects that offer concrete solutions to contemporary technological, societal, and environmental challenges.

The competitions bring together participants from several international universities and are evaluated by a jury composed of academic experts and professionals from different countries, thus offering candidates international visibility and a unique opportunity to showcase their research and innovation work.

Applications are open to students preparing their final year project during the 2025-2026 academic year.

Students wishing to participate can consult the application procedures and submit their projects via the official Bernspire website:

www.bernspire.com/the-details

The results of previous editions and the winning projects can be viewed via:

The Euromed University of Fez and the Cervantes Institute of Fez seal a strategic partnership in service of Euro-Mediterranean intercultural dialogue

In a dynamic of strengthening academic and cultural exchanges between the two shores of the Mediterranean, Euromed University of Fez and Cervantes Institute of Fez have formalized a cooperation agreement marking a new stage in their joint commitment to intercultural dialogue and bringing people closer together.

The signing ceremony took place on Wednesday, May 13th, in the presence of Professor Mostapha Bousmina, President of the Euromed University of Fez, and Mr. Òscar Pujol Riembau, Director of the Cervantes Institute of Fez. The event was also graced by the presence of His Excellency Enrique Ojeda Vila, Ambassador of Spain to Morocco, demonstrating the importance attached to this cultural and academic cooperation initiative.

This agreement reflects a shared ambition: to make language and culture essential drivers of rapprochement, mutual understanding, and openness between Mediterranean societies. Through this alliance, the two institutions reaffirm their commitment to promoting intellectual exchange, intercultural dialogue, and academic synergies around Hispanic culture and language.

This partnership will pave the way for the implementation of a rich and diverse program of joint initiatives, including conferences, workshops, training programs and cultural events designed to foster interactions between students, teachers and cultural actors.

Beyond the institutional scope of this cooperation, this initiative illustrates a common vision based on openness, the transmission of knowledge and the development of a Euro-Mediterranean space where culture constitutes a strategic lever for sustainable rapprochement between academic communities and future generations.

Awards and Distinctions

ATX Design of the Year 2025: Three groups of EMADU students recognized at the international competition

The Euromed University of Fez (UEMF) is proud to announce that six students (3 pairs) from the School of Architecture, Design and Urbanism (EMADU) have obtained three honorable mentions in the prestigious international competition ATX Design of the Year 2025, organized by Architerrax, an international learning platform dedicated to the dissemination of knowledge in architecture and design.

Sous l'encadrement de l'enseignant Pr. Jassim Benlemlih, les étudiantes ont concouru dans la catégorie "Design for Change", qui met à l'honneur l'innovation et l'impact social à travers des solutions architecturales visionnaires.

Le concours proposait aux participants de développer des projets architecturaux destinés aux réfugiés de guerre, en se concentrant sur des besoins concrets tels que le logement, les espaces communautaires, l'éducation ou encore la santé. Au-delà des interventions d'urgence, il s'agissait d'imaginer des dispositifs durables, dignes et résilients pour améliorer les conditions de vie des populations déplacées.

Les projets présentés par les étudiantes de l'EMADU ont séduit le jury par leur créativité, leur approche humaniste et leur capacité à proposer des réponses innovantes à des enjeux globaux. Cette reconnaissance internationale témoigne de la qualité de la formation dispensée à l'EMADU et de l'engagement de ses étudiants à contribuer positivement aux défis sociétaux actuels.

Dans le cadre du THE Impact Rankings 2026, l'Université Euromed de Fès (UEMF) s'est classée dans la tranche 201-300 parmi 932 institutions à l'échelle mondiale pour l'ODD 10 : Réduction des inégalités. Cette performance met en valeur ses contributions en faveur de l'inclusion, de l'égalité des chances, de l'accessibilité de l'enseignement et de la réduction des inégalités, à travers ses actions de
