SDG17 Report: PARTNERSHIPS FOR THE GOALS

Introduction

The UEMF is a partnership project. Heemanates from the Royal Initiative with the desire to create in Fez a framework for higher education and research based on intercultural dialogue, exchange and cooperation between the two shores of the Mediterranean, with a natural extension to Africa Sub-Saharan, while offering excellent training and conducting very high-level scientific research in close connection with the socio-economic world. The UEMF welcomes more than 35 nationalities between students and teachers and therefore constitutes a multicultural platform.

The Moroccan government has supported the implementation of the UEMF significantly through subsidies both for its operation and for the land base for its eco-campus and for its investments.

The UEMF has also benefited from donations from the European Union and a loan of 50% of its investments from the European Investment Bank and also from support from the Union for the Mediterranean.

Several partnerships are operational in terms of:

Academic

1. Trainings of the Faculty of Humanities and Social Sciences

Bachelor in Translation and International Relations

It is a multidisciplinary training combining various contributions from the human and social sciences as well as legal and political sciences. The Euromed University of Fez is the first and only university in Morocco to offer this original and innovative academic format.

The current global challenges require the presence of professionals with a good knowledge of international institutions and organizations, as well as a solid training in human sciences allowing them to know in depth the evolution and the complexity of societies. The Bachelor in Translation and International Relations is a university degree that meets this need. It integrates different fields of knowledge, and aims to equip students with skills useful for analyzing the complex problems of our time.

This sector offers solid training in translation and international relations, supplemented by legal, economic and sociological subjects and skills.

https://ueuromed.org/faculte-des-sciences-humanes-et-sociales/filieres/diplome-bac3-en-traduction

Bachelor's degree Methods and Professions of Cultural Engineering

The main objective of this sector is to train students in knowledge of the field of culture, its components and forms of expression, its production and dissemination strategies on the basis of cross-cutting and complementary disciplines.

This is to prepare them to be professional actors in the cultural field, with the ability to use the knowledge acquired to:

- Make this field a real lever for economic and social development.
- Play a major role in the emergence of new creative and cultural industries in Morocco.

https://ueuromed.org/faculte-des-sciences-humanes-et-sociales/filieres/methodes-et-metiers-de-lingenierie-culturelle

Bachelor's degree in Social Sciences and Health Management

The sector aims to train executives authorized to exercise a certain number of professions and responsibilities with added value:

- Expertise and consulting in public health in its social dimension;
- Support and coaching of local authorities in the definition and conduct of preventive health programs;
- The management of an establishment or a hospital center;

- Health education project engineering for any public or private institution wishing to develop professional skills in this sector.

Master's in Business Law Franco-Moroccan course relocated to the UEMF

The Sorbonne Law School, in partnership with the Euromed University of Fez, offers a new course: delivered by the University of Paris I Panthéon Sorbonne.

The course is spread over two years of training (Master 1 and Master 2) provided in Fez by professors and lecturers from the Sorbonne Law School. Following their course, students can also obtain a master's degree in Moroccan law, which will allow them to pass the bar admission exam in both France and Morocco.

[NEW TRAINING] Master's in Business Law Franco-Moroccan course relocated to UEMF | UEMF (ueuromed.org)

2. Research

Production co-authored with low- and middle-income countries

The UEMF develops partnerships with sub-Saharan African countries at the academic level: reception of students, doctoral students and development of partnerships between research teams.

NASAC– The Network of African Academies of Sciences (nasaconline.org)

The President of the UEMF, Chancellor of the Hassan 2 Academy of Sciences and Techniques, is a former President of the NASAC and has contributed to the writing of several works and reports with his African academic colleagues

ASRIC Scholarships

Several dozen African students on scholarships from the UEMF and theAfrican Science, Research and Innovation Council (ASRIC) do their thesis work in UEMF research laboratorieshttps://www.ueuromed.org/en/news/various-announcements/asric-uemf-scholarships-african-students-are-now-open-application

ASRIC is mandated to implement the Science, Technology and Innovation Strategy for Africa (STISA-2024) and to promote scientific research and innovation to address Africa's socio-economic development challenges .
Application Instructions:https://greatyop.com/bourses-asric-uemf-etudiants-africains/

3. Different University labels

THE International Ranking of the best universities in the world: the UEMF presents with eight other Moroccan universities

The THE ranking is based on a multidimensional analysis of higher education institutions through the achievement of the United Nations Sustainable Development Goals measured by Thomson Reuters and Elsevier. It should be noted that recently created universities such as the Euromed University of Fez or the International University of Rabat are better ranked than the other major national universities.

It is a world ranking, by subject and by reputation and it also gives regional and national rankings. Together with the Shanghai and QS rankings, the THE ranking is one of the most influential university rankings worldwide.

The 2022 ranking involved universities from 106 countries. Eight Moroccan universities are ranked this year among the top 1,000 universities in this worldwide ranking. Nationally, the UEMF ranking is as follows:

4th: Euromed University of Fez

https://ueuromed.org/actualites/annonces-diverses/classement-international-des-meilleures-universites-au-monde-luemf

The UEMF will be a candidate for the THE IR ranking of the next editions.

UEMF finalist for The Green Gown Award (2022)

The Green Gown Award or commonly referred to as "The Green Gown Award" is an award that recognizes outstanding sustainability initiatives undertaken by universities and colleges around the world. It is organized in partnership with the United Nations Environment Program (UNEP) and supported by the AUF, the Association of Commonwealth Universities (ACU) and the International Association of Universities (IAU).

This year, 56 finalists were selected and they represent 19 countries around the world. Among them, we find five member establishments of the Agence Universitaire de la Francophonie:

- In Canada: HEC Montreal;
- In France: Institut Mines-Télécom Nord Europe;
- In Morocco: Euromed University of Fez (UEMF);
- In Mexico: National Autonomous University of Mexico and Veracruzana University.

Responsible Campus of the Year

The Euromed University of Fez was named winner of the "CAMPUS RESPONSIBLE de l'ANNEE" Prize, during the ceremony organized in Paris on Tuesday, October 04, 2022, under the effective chairmanship of the Minister of Higher Education and French Government Research.

The "Responsible Establishment of the Year" category rewards UEMF's commitment to the SDGs and its lasting impact to become a responsible organization with regard to the challenges of transition in four main areas:

- Leadership and governance;
- Real Estate and Operations;
- Learning, teaching and research;
- Partnership and commitment.

The UEMF was rewarded for its gender equality strategy during the 6th edition of the Professional Equality Awards ceremony.

The UEMF won the Certificate of Excellence for its Gender Equality Strategy by obtaining the best score in each of the ten themes proposed in the application file for the Trophy.

The Professional Equality Trophy aims to recognize the commitment of institutions and reward the best actions undertaken in terms of gender equality, to promote and share good practices initiated by institutions for the promotion of equality. and raise awareness among all economic and social actors of the benefits of consecration of professional equality on the performance of institutions.

International Consortium "Equality between Women and Men"

The UEMF was selected following an international call for tenders to be a member of the international consortium of eleven member establishments of the Agence Universitaire de la Francophonie (AUF) who will work to achieve gender equality in their campus. The consortium's goal is to achieve gender equality and empower all women and girls. The operation of the consortium is collaborative and participatory, and focused on notions of sharing and pooling. The work takes place over one year, from June 2021 to June 2022.

Participation in COP22 and obtaining the label

4. Conferences, partnerships and partnership projects

Conference on Climate in the Fez Meknes region

The New Development Model reinforces the importance of a place-based approach to sustainable and inclusive development. In this sense, the regions have a major role to play. What are the main issues related to climate change for the Fez-Meknes region? Are they well reflected in the region's strategies and priorities? How to facilitate coordination between the different entities to maximize the impacts of climate action?

The City of Fez is one of the first cities in Morocco to adopt a Strategy for Resilience to Climate Change. Why is it so important for a city like Fez to adopt such a strategy? To what extent does this influence the preparation of the new municipal action plan

In Morocco, as in all countries around the world, the financing needs to fight against climate change greatly exceed public resources. The private sector is therefore led to play an important role, for the financing it can mobilize but also for the innovations it brings. What political support is needed for the development of investments in green value chains and sectors? What new skills needs to facilitate the development of private sector activities?

How does the University prepare young people for the issues and challenges of climate change? How is academia equipping itself to best meet future skill demands? How to adjust the university curriculum to prepare for the green jobs of tomorrow? What commitment for students?

Do the NGOs in the region have a "climate change" action plan? What support can NGOs and think tanks provide to combat the harmful effects of climate change?

“Women in Science” Charter

The "Women in Science: AI and Future" chair was born from the collaboration between the Islamic World Organization for Education, Science and Culture, ICESCO and UEMF.

This is a chair entirely dedicated to the promotion of science and particularly artificial intelligence among girls and women. The “Women in Science: AI and Futures” Chair aims to counter the problemeaddress the under-representation of women in science through various activities aimed at increasing recruitment, retention and progress of women in science and in particular in Artificial Intelligence. The objective of this Chair is to create an ecosystem of excellence in Artificial Intelligence, to promote and ensure the participation of women researchers in this field, through collaborations with international experts and by training researchers and innovators.

Networking of EPS at the aerospace fair organized by AMDIE and GIMAS, promotional publication on BIM in the magazine “Chantiers du Maroc”.

On March 15, 2022, an agreement was signed between the Euromed University of Fez and the Aerospace Moroccan Cluster as part of the international aeronautics and space fair held in Nouaceur from 15 to 17 March 2022.

A strategic partnership supporting innovation in the fields of aeronautics and space through the development and implementation of training projects, expertise, studies and research and development in collaboration with public structures or private national and/or international has been sealed.

This event, organized by the Moroccan Agency for the Development of Investments and Exports (AMDIE) in partnership with GIMAS (Grouping of Moroccan aeronautical and space industries) and ABE (Advanced Business Event), was attended by theEuromed Polytechnic School (EPS)and the Vice-Presidency for Partnerships and International Relations through a highly frequented stand and one-to-one exchanges. This show brought together a group of

leading professionals from the aeronautical and space industries evolving within the triptych "Technology, Operations, and Supply Chain" with more than 400 participants and 200 companies representing twenty countries within Midparc Nouaceur located in within the Mohammed V Aeropole ecosystem.

Signature of agreement between the Euromed University of Fez and the Aerospace Morocco Cluster | UEMF (ueuromed.org)

Morocco and Israel once again united by a partnership between two universities

The Euromed University of the city of Fez (UEMF) will collaborate with the Sami Shamoon College of Engineering (SCE) on some innovative projects.

The agreement was signed by the presidents of the two higher education institutions, Professor Mustafa Bosmina of UEMF and Professor Shimon Levitsky, as well as the rector of the university, Yehuda Hadad. The project aims to collaborate in the field of academic research and the submission of research proposals to the European Union.

"The signed agreement will help the two higher education institutions to improve, broaden and deepen academic research and develop research programs," said the rector of the SCE.

A delegation from the "Shenkar College of Engineering and Design" visits UEMF for the concretization of their cooperation

Within the framework of the Memorandum of Understanding in the field of scientific research and innovation, signed in Rabat on May 26, 2022, between the Minister of Innovation, Science and Technology of Israel and the Minister of Higher Education, Scientific Research and Innovation of the Kingdom of Morocco, The Euromed University of Fez welcomes on its campus, on May 30, 2022, a large delegation from the "Shenkar College of Engineering and Design", a high place training and research in the fields of Design, Arts and Engineering.

This delegation is made up of the President of Shenkar College, Pr. Sheizaf Rafaeli, accompanied by the Vice-President, Pr. Samuel Kenig and Professors Yael Moria and Yoram Halevi, respectively Deans of the Faculty of Design and the Faculty of Engineering.

The meeting aims to formalize the ties of cooperation, in particular by the signing of a partnership agreement and to lay the foundations for solid and lasting bilateral relations, between two leading institutions, in the field of training and research-innovation. by developing courses and joint research programs on themes of common interest, including digital transition, artificial intelligence, innovative agriculture and energy as well as art and design. This cooperation also concerns the mobility of students and teacher-researchers.

The science-policy interface in the Euromed region: cooperation, internationalization, sharing and regional integration on the agenda

UEMF and its partners The Euro-Mediterranean University (EMUNI) and the Union for the Mediterranean (UfM) are organizing an international conference under the theme: "Science-Policy Interface in the Euro-Mediterranean Region".

https://www.leconomiste.com/flash-infos/fes-l-uemf-inaugure-son-cycle-de-conferences-internationales

https://www.ueuromed.org/actualites/cycle-de-conferences/linterface-science-politique-dans-la-region-euromed-cooperation

Med2IH Consortium Meetings: feedback on flagship projects in the Euromed region

As part of the activities of the "Erasmus+, Capacity building in Higher Education (CBHE)" project held by the MED2IaH program The MEDiterranean countries: Towards Internationalization at Home, the Euromed University of Fez received a delegation composed of specialists and experts to update on the project's roadmap and take stock of the program's key achievements. Prof. Nada Trunk, Research Professor and Advisor at EMUNI "The Euro-Mediterranean University of Slovenia" opened the workshop with an overall presentation of the project.

An example of MED2IaH's initiatives is "The Student Boot Camp", a competition on the narration of an intercultural experience, in video format, which targeted 34 students from the Euromed region: Morocco, Tunisia, Egypt, Lebanon and Jordan. The best projects won a trip to Piran, Slovenia, to meet other students from: The Euromed University of Slovenia (EMUNI). Through this bootcamp, selected students had the opportunity to attend modules to deepen intercultural knowledge, innovation, leadership, creativity and project management.

The MED2IaH project aims to anchor the concept of internationalization at home in the universities of nine countries in the Euro-Mediterranean region: Morocco, Tunisia, Egypt, Lebanon and Jordan, Slovenia, Italy, Spain and France.

From Morocco, the project has the participation of three universities in the Fez-Meknes Region, namely the EuroMed University of Fez, the Moulay Ismail University of Meknes, and the Al Akhawayn University of Ifrane who unite their efforts and knowledge to ensure the success of the project and jointly promote the Euro-Mediterranean cultural heritage. Ultimately, the involvement of these three Moroccan universities, with the support of the Erasmus+ Morocco Office, should make it possible to develop and design an "Internationalization at Home" model, tailor-made and adapted to the Moroccan context.

This event was also intended for teachers, students and administrative staff of the UEMF.

Signing of a partnership agreement between UEMF and Webhelp Morocco

After a first week rich in conferences, student activities, and major events, the Euromed University of Fez (UEMF) today seals a partnership with Webhelp, which employs more than 10,500 people in Morocco with 4,500 in Fez, making Webhelp the first private employer in the Fez-Meknes Region.

The agreement, initialed by the President of the UEMF, Pr. Mostapha Bousmina and the Managing Director of Webhelp Morocco, Mr. Redouane Mabbour, covers several aspects related to the training and skills development of Webhelp staff who tackle now in engineering, IoT (Internet of Things), ITO (Information Technology Outsourcing), BPO (Business Process Outsourcing), Big data and digital professions, which is one flagship specialties of the Euromed University of Fez which has the only engineering school in the Euro-African space completely dedicated to Digital Engineering and Artificial Intelligence.

This agreement is part of the continuity of the strong relations that the UEMF undertakes with the socio-economic and industrial world and the continuous implementation of its triptych "training, research-innovation and openness to the professions of the future".

Under this agreement, the two parties undertake to pool their efforts in order to put in place a series of measures capable of boosting the professional integration of young UEMF

graduates and to support Webhelp in improving skills of its staff and also the organization of events for the benefit of young people, like the Hackaton co-organized by the two partners from September 21 to 23 for the benefit of a hundred young people from the UEMF. They are called upon to compete in ingenuity to respond to a concrete problem in the presence of experts from Webhelp and the CRI and supervised by professors from the Euromed Business School, the School of Digital Engineering and Artificial Intelligence. and the Department of Entrepreneurship and Socio-economic Cooperation of the UEMF.

Higher education: A consortium of universities is born

Consortium members: Gabriel Malka (UM6P), Mostapha Bousmina (Euromed), Mohammed Adnaoui (UM6SS) and Jamal Samir (UIASS).

Four universities are launching a new consortium to consolidate their offer in the field of higher education. The Euromed Universities of Fez (UEMF), Mohammed VI of Health Sciences (UM6SS), Mohammed VI Polytechnic (UM6P) and the Abulcassis International University of Health Sciences (UIASS) have created a consortium of non-profit universities lucrative, under the leadership of a rotating presidency.

A delegation composed of the EU, the EIB and EU Ambassadors, visits the UEMF for an unprecedented exchange with students

On the occasion of the European Year of Youth and celebrations in connection with Europe Day, the European Union in Morocco, the European Investment Bank, and thirteen Ambassadors of EU Member States in Morocco, visited the UEMF eco-campus together.

This visit underlines the importance of the Morocco-EU partnership to promote young people and their ideas. During this event, a plenary session co-chaired by Professor Bousmina, President of the UEMF,

Ms. Patricia Llombart-Cussac, EU Ambassador to Morocco, and Anna Barone, EIB representative in Morocco were marked by an unprecedented exchange between ambassadors and students within the framework of three thematic workshops: EU-Morocco partnership; climate change and entrepreneurship; higher education and mobility, as well as a transversal gender theme. As such, the UEMF plays a key role in training a future generation of high-level executives, bearers of innovation, nourished by the values of tolerance, openness and excellence in terms of creation and innovation and capable of to meet the multiple challenges of sustainable development.

Visit of the Vice-President of the EIB Mr. Mourinho Félix to the UEMF for an exchange with the students around the climate

On an official visit to Morocco for the first time, the Vice-President of the European Investment Bank (EIB), Mr. Ricardo Mourinho Félix, will go to the Euromed University of Fez (UEMF) on Monday 17 October.

In the presence of Professor Mostapha Bousmina, President of the UEMF, Mr. Ricardo Mourinho Félix will host a conference for UEMF students to highlight the importance of climate issues for young people as the next COP 27 approaches.

This visit takes place in a "Team Europe" spirit and underlines the importance of the Morocco-EU partnership to strengthen innovation, inclusion and the search for excellence in higher education.

With the approach of the next 27th edition of the Conference of Parties (COP27) scheduled for Sharm El Sheikh in Egypt from November 6 to 18, Mr. Mourinho Félix will discuss with UEMF students and teacher-researchers on the challenges and opportunities of climate transition as well as the role of the EIB, as a climate bank, to promote sustainable models in Morocco and around the world. In a Team Europe spirit, this visit to the UEMF eco-campus highlights the importance of the Morocco-EU partnership to strengthen the skills, inclusion and job prospects of young people. Since 2016, the European Union and the EIB have been alongside the Moroccan Government to support the various development projects, including that of the UEMF with teaching and research programs of excellence.

The support of the EIB and the EU to the UEMF amounts to 58 million MAD in the form of donations and 148 million MAD in the form of subsidies in addition to a loan of 784 million MAD from the EIB. This funding has enabled the construction and equipment of the University's eco-campus, which meets the best international standards and which today covers more than 40 hectares and where some 3,000 students and teachers meet daily. - researchers representing 43 nationalities. This European support has also reinforced the possibility of access to the most deserving students by supporting the University's scholarship policy. In 2026, the UEMF should welcome more than 6000 students from all walks of life.

Mrs. Najet Vallaud Belkacem: 2030 Sustainable Development Goals: so far, so close?

Decarbonization, reduction of greenhouse gas emissions, eradication of poverty, justice and peace as well as other priorities defined by the United Nations for 2030 constitute the 17 sustainable development goals designed to respond to the global challenges facing we are facing.

These interconnected goals are of such great importance that it is necessary to ensure that each of them, and each of their targets, is achieved by 2030. Why these goals are a priority and what is the degree of their implications in organizations? This is the question that is the subject of this conference given by Ms. Najat Vallaud Belkacem. Former Minister of National Education, former Minister of Women's Rights, Urban Affairs, Youth and Sports and currently Director France of ONE, the NGO fighting against extreme poverty and preventable diseases, Ms Najet Vallaud Belkacem responded positively to the invitation of the UEMF to give this conference led by Pr. Hafsa El Bekri, teacher-researcher at the
